Introducing the Soulful Women Program

Imagine how it would feel to recapture the authentic, juicy, soulful woman you ARE, and to share it with others. Imagine feeling filled up from the inside out - filled with abundance, clarity and self-acceptance. These are the fruits of the Soulful Women Course, which distills some of the most important teachings from our Women's Wisdom School, which represents a long lineage of initiated women.

Over a number of years of working with women from all walks of life and various countries, we've found that our fabulous, powerful and feminine radiance can be accessed through activating 13 different aspects, or archetypes, of the feminine.

For virtually all of us, we have more access to certain of these archetypes, while other aspects are areas for growth. For example, the Great Mother invites us to welcome the unknown, while the Goddess of Love invites us to open deeply to our own pleasure. The Initiator asks us to be willing to shatter illusions and speak our truths, while the Muse beckons to our magical child.

In welcoming the fullness of our feminine spirit as represented by these archetypes, we develop a **powerful set of tools to create radiant, magical lives and step into our true destiny path.** We are resourced with a full palette of colors to paint the canvas of our lives and make our unique contribution to the planet. And we have a great time doing it!

In this course, we are weaving together ancient, mystical teachings about the feminine with some very modern-day wisdom from some of today's brightest lights. Guest faculty include Ariel Spilsbury, author of the 13 Moon Oracle whose work deeply inspired the content of this course. Marci Shimoff, best-selling author will share the secrets to her personal success and happiness. And dream-manifestation guru Marcia Wieder will be holding a mini-workshop on designing and creating an inspired life. An amazing lineup, not to be missed!

This program is put together in an easy-to-follow, step-by-step program so you can effortlessly integrate it into your life.

And while there's a lot of personal growth material out there, there's NOT many in-depth, systematic programs for women that are designed to reconnect you with the bright spark of your own spirit and sustain it over time.

Isn't it time to finally live into your full potential? To make the big difference in the world you yearn to make? To stop the stressful cycle of dis-ease and live healthier and happier lives? To honor your body and your soul's purpose? To feel a part of a community that's dedicated to standing in feminine power and transforming the world?
